pain in my breast, fever, night aweats, great emacistion, and a prostration of strength. I was failing so fast, that I gave up all hope of recovery. No remedy that I took would produce the least effect upon me, and many of my friends who saw me said that it was impossible for a man so much diseased as I was ever to recover.

As my cough was so very bad, and my pulmonary disease fast increasing, a friend recommended &CHENCK'S FULMONIC SYRU! for that disease, and after using it some time. I found that it was the only remedy that I ever used that had the least benet cial effect upon me. It relieved me of my cough, pains and fever—stopped my nightsweats, and strengthened my whole system. After using the syrup for some time, I found, to my great joy, that my ulcers were ripening and beginning to heal. I continued using the Syrup after I was cured of the consumption, until my sores were all healed, and the whole of my back, neck, breast and arms are now covered with scars, which present a remarkable appearance. I am perfectly well at this time, and am fully nonvinced that no remedy but the Full monic Syrup would ever have purified by system from this loathsouse disease. I feel thankful that I am well-state, show them to any person who may have any serofulous stree, show them to any person who may have any serofulous arrespond to the coars. I will impossible to attant to may be thankful that I am well-state, show them to any person who may have any serofulous or estrabired diseases, at my residence, its Brenner alley, ransing south from Vanestreet, above Frith, where they can see for themselves the most remarkable scars ever viewed upon any human bring.

City of Philadelphia, so.

This ninth day of Jenuary, A.D. eighteen hundred and forty-six, before the subscribers, mayor of said city, personally came John Carr, who, being aworn according to law, doth depose and say, that the foregoing statement, to which he has subscribed his nease of this city, do hereby certify that we are well acquainted with John Carr, who has b

Office, No. 4 Courtlandt street, where persons can receive advice, and have their Lungs examined, by a regular physicism, free of charge.

For sale, also, at Bush & Hilyer's, 178 Greenwich street; A. B. Sands & Ce., 271 Broadway; C. S. Hutchings, jr., 43 Bleecker street; C. Ford, 274 Fourth street, corner Wooster, Washington squarey, and H. Everett, 98 Hudson street.

No. 42 Wall stream.

A maiden dwelt in a deep green wood,
A smile of nature's purest mood,
Her hair as sunshine streaming;
With eyes of gentlest violet blue,
Whose glances, earnest, mild and true,
Told love lay in them dreaming.

A glory and a observa-The maiden died, and fair she lay. As a creature newly formed of clay— Not born for tears or sadness. So glorisusly she rested there, She seem'd a sweet, embodied prayer, Fresh from a heart of gladness.

Our Savior's hand alone can trace
The expression of that minstrel's face,
As on her cold form looking.
No tear escaped his burning eye—
He loved her—for eternity,
Nor death nor sorrow brooking.

HAVANA, 11th Feb., 1846. Trade-Marine News-Mexican Affairs, &c. Business here is extremely dull, and the harbor i filled with vessels of all nations. We have a large supply of provisions. The steamboat Genil arrived here from New York last week, via Charleston, eight days passage, and she is to be put under the Spanish flag. The English steamer Avon, arrived from Europe, and will sail to-day for Yera Cruz. The mail

Europe, and will sail to-day for Vera Cruz. The mail steamer Teviot arrived from Vera Cruz hat week, with dates from Mexico to the 31st January. Mr. and Miss Borghese arrived in her, and are proceeding to England. They did not land here, because they had a lawsuit with Mr. Marty, proprietor of the Tacon Theatre, and would have to pay the cost, \$2500; but being on board of an English packet, no one can go to her and claim of her a cent. M. Perrozi has taken an engagement with Mons. Marty, to join the Italian opera, and will sing again with Mrs Pico.

The American brig Midas, Captain Echberger, arrived here from Boston on the 8th inst., after a passage of 30 days, and with a loss of bulwarks, long boat, and two other boats. She met with a heavy gale in the Gulf stream, in latitude 35 N., and longitude 64, having, previous to the gale, sprung her main yard. She was lying to, when the sea struck ner on her starboard side, from midship way aft, and swept all there was on deck, except the galley. Yesterday I was on board, when Mr. Chas. Ting, insurance company agent, was surveying, and noted the damages. The captain, having all his clothes wet on him for several days, was attacked with rheumatism, and has his right leg and foot swelled, and is in exch pain that he is obliged to remain on beard.

Ex-President Santa Anna is here, in good health, and expects to be recalled by the Mexicans. No doubt he will.

Mr. Slidell, Charge for the United States, was escorted for his safety, and will return home soon. Governor O'Donnell turns out eften, at the head of several thousand men, making little war, just to drill his troops and keep them awake.

Auburn, N. Y., Feb. 20, 1846.

The Trial of Wyatt for Murder-Case of Plumb greatly exaggerated-Ex-Governor Seward, &c.

The trial of Henry Wyatt, which has just termi-nated, furnishes another melancholy proof of the perfect impunity with which criminals of the deepest dye, slip through the India rubber meshes of the law. The jury, after being out twenty-eight hours, could not agree, and were consequently discharged they stood seven for conviction, and five for acquittal. Read the evidence, and say whether or not, it is possible to make out a clearer case of cold-blooded, premeditated

window." In order to estisfy the community of the utter falsity of the report, the officers of the prison sent for the coroner to hold an it quest; and the jury, after occupying ten hours in a careful examination of all the facts and circumstances connected with the case, returned a unanimous verdict of, "died of billious intermittent fever." Notwithstanding this signal rebuke, the originators of the report still reitersted the calumny; and, by a death-struggle, they succeeded in extracting from the Grand Jury, an indictment sgainst Riram Rathbun, head keeper, and M. W. Carey, assistant keeper, for having "superinduced" the fever of which Plumb, the convict, died. These simple facts have been so distorted by such catch words as "Shocking brutality in the Auburn State Prison". "800 lashes (instead of 66 or 70 at most) inflicted upon a convict".—"death from flogging," &c. &c., that many well-meaning individuals have been betrayed into a belief that punishment, of every form, ought to be abolished as, unnecessary, in State prisons; and they, in their simplicity, would substitute moral suasion. Moral suasion, indeed "As well attempt to appears the ferocity of the lion, ready to apring upon his prey, as attempt to control the cut-threat and assassin by more moral suasion.

This recently awakened feeling of aversion to corporal punishment, has also been enlisted in the cause of Wystt. It appears that he, with two accomplices, sometime in the month of July, 1844, provided themselves with saltable tools and weapons; te effect their escape from prison; fortunately, however, for the lives of the fated turnleys, the plot was discovered, and Wysttreceived for this attempt at insubordination twenty-sight blows, the only punishment, by the way, with which he has ever been visited. This punishment, which had not the least possible connection with the murder, having been inflicted eight months previous to the commission of that horrid crime, was, nevertheless, dragged into trial, and was, in fact, the only evidence adduced to

delphia and New York, destined for the West and South is almost incredible. The Ericcson steambost line from

against imprisonment for debt, and there is a strong probability that it will also receive the sanction of the Senate.

The workmen are now engaged in laying the telegraph wires between this city and Philadelphia, so that
you may soon expect to be in momentarily connection
with Washington. Of course, the Herald will use this
as well as all other modes of rapid cont syance that costs
money, with more freedom than all the New York press
combined.

In the County Court yesterday, Judge Legrand delivered the opinion of the Court in the case of the Merchants' Bank of Baltimore vs. The Bank of the United
States. The opinion was very lengthy and able. It is
in favor of the plaintiffs, and sustaining their demurrer.

An ardent young man, named Baser, from Havre de
Grace, who was in attendance at the grand ball of the
ludependent Greys, a few nights since, fell desperately
in love with a lady to whom he had an introduction,
named Miss Cooper, daughter of Mr. John Cooper, on
Howard street. After alseping on his love, he found it
grew no better, and not knowing how to follow up his
acquaintance, he sat down and wrote her a very respecttul letter, desiring a private interview, and sent it for delivery by a negro. The messenger writvered the letter
to the lady's father, who broke open the seal, read it.

rules of propriety in her manners, and doubliessyws as much in fault as her young admirer, who will bear the marks of his ardent passion for many days to come, with no one to soothe his sorrow.

The Stock Boand—Baltimore 5's sold yesterday to a large amount, at 97 a 974, and closed at 974 asked, 974 bid. Considerable sales of Maryland stocks were also made at 774 a 78, and closed at 774 asked, 784 bid.

The Marker.—Limited sales of Howard street flour were made yesterday at \$4.75 and \$4.68. Little or nothing doing, however.

Whiskey continues at 23 cents for hhds. and 24 for barrels.

· PHILADELPHIA, Feb. 27, 1846.

Senster Gibbone and his Constituents on the "Right of Way"—Weather—Markets, &c.

We are in a turmoil of excitement about the proposed right of way to Pittaburg, for the Baltimore and Ohio We are in a turmoil of excitement about the proposed right of way to Pittsburg, for the Baltimore and Ohio Railroad. An immense meeting was held at the Museum against the measure, and in favor of connecting Pittsburg, and also the Lakes, to this city, by continuous lines of railroad, at which the Mayor presided. Resolutions condemning Senator Gibbons' course were adopted by acclamation, and a committee of our most substantial citizens appointed to proceed to Harrisburg, and induce him to alter it, or resign his seat. It does a democrate good to see the leaders of the whig party, and the party itself, coming out so fully, and adopting the democratic doctrine of the duty of the representative to obey the will of his constituents. It is glorious.

The weather is extremely cold, and the rivers Delaware and Schuplkill are full of ice. No local occurrences worthy of note.

The Stock market looked better to-day than a few days since, and large sales were made at a slight advance of prices. Nothing doing in flour. Large sales have been made this two or three days, and very little offering to-day. There are large amounts on storage, held for speculation.

HARRISBURG. (Pa.) Feb. 17, 1846.

HARRISBURG, (Pa.) Feb. 17, 1846. State Interest-Proceedings Against Delinquents for Non-Payment of State Tax.

Non-Payment of State Tux.

The prospect of the continued payment of the interest upon the State debt, continues hourly to brighten, and the present untiring Treasurer of the State, Cel. Snowden, is determined to enforce a rigid collection of the State tax. Some of the large corporations have neglected to comply with the provisions of the tax bill of 29th of April, 1844, and have set at naught the provisions of the law. The Wilmington Railroad tions have neglected to comply with the provisions of the tax bill of 29th of April, 1844, and have set at naught the provisions of the law. The Wilmington Railroad Company and the Reading Railroad Company, are in this category; and instructions, it is said, have been forwarded to the Attorney General of the State, to commence prosecutions against them. They are in arrears for two years' taxes on the value of their capital stock, and if there is not money enough in the treasury of the companies, the stockholders will be called upon to advance the tax, and in case of default in paying it, for five weeks, a mode is pointed out for the sale of each stockholder's stock who may not pay up. It provides, "That in case the funds of such bank, institution or company, in the possession, or subject to the control of the cashier or treasurer, at the period when the value of the said capital stock shall be so estimated, or appraised, shall be insufficient to pay and satisfy the jax aforesaid, it shall be the duty of said cashier, or treasurer, for the with to give notice to the stockholders of such bank, institution, or company, of the amount required on each share of stock by them respectively held, to enable the said cashier, or treasurer, to pay the tax aforesaid and if any such stockholders shall neglect, or refuse to pay the amount to required, for the period of thirty days from from the time of such notice, the said cashier, or treasurer, to pay the tax aforesaid and if any such stockholders shall neglect, or refuse to pay the amount to required, for the period of thirty days from from the time of such notice, the said cashier, or treasurer, to pay the published in or nearest to the county in which such bank, institution, or company, or its principal place of busines, is located, proceed to sail, at public sale, and transfer to the purchaser, so many shares of the stock of such delinquent stockholder as may be necessary to pay his portion of the tax required to be paid as aforesaid."

There are many other corporations

City Intelligence.

Medical Compliance—A meeting of the members of Dr. W. A. Darling's class of the medical department of the University, was held on February 19th, when the following persons were appointed a committee to purchase a gold watch, to be presented to him as a token of their esteem and regard for him:—Messrs. A van Buren, W. H. Proel, T. Stewart, T. M. Franklin, and T. C. Brooks.

Public Schools.—We have repeatedly heard of compleints of favoritism, in the awar ing of medals to pupilism to the become teachers in these highly meritorious institutions; and, if well founded, we hope the superintendents will take the matter into consideration, and award the meed of merit where it is due. To-day there will be an examination of pupils, and selection of teachers in the 4th ward schools, and we hope the report that the three candidates are already selected—and that the examination to take place at one o'clock, will be made for mere form's sake—is without joundation. The trustees should, by fair conduct, keep such reports from receiving currency. There should be no favoritism in our public institutions, or the great objects aimed at will be destroyed.

Furnal to Tex Werenes.—The funeral of the late captain and mate of the Swedish bark Lotty, took place

ceiving currency. There should be no ravorilism in our public institutions, or the great objects aimed at will be destroyed.

FUNERAL OF THE WERCERS.—The funeral of the late captain and mate of the Swedish bark Lotty, took place yesterday afternoen. The service was performed by the Rev. M. Stohlmann, in a very impressive manner. A large concourse of people attended, and we noticed with pleasure, that many of our ship masters; together with forty-eight New York pilots, who turned out in a body, were present to pay a last tribute of respect to the memory of the deceased. The vessels in port had their flags at half mast during the day. The consignee of the ill-fated bark, Mr. William Weiser, deserves all credit for the noble humanity of his conduct in obtaining the body of the unfortunate deceased Capt. Doughan had performed twenty-one successful voyages to this port, and never employed a Jersey pilot, and meeting the tremendous gale, which recently passed over us, he has met an untimely grave. His death is sincerely and feelingly regretted by the large circle of acquaintances who knew him.

First.—The premises No. 167 Breadway, known as the "Byron," took fire, last night, at about 11 o'clock; but the damage done was trifing. The occupants of the house succeeded in mastering the destroying element, without the assistance of the fire department. The alarm was first given by Patrick Moran, the insurance watch, who, in company with a few others, extinguished it.

Innumanty.—Neglecting to sprinkle sahes or sand on the ice before your door. Many persons are crippled for

alarm was first given by Patrick Moran, the insurance watch, who, in company with a few others, extinguished it.

IRMUMARITY.—Neglecting to sprinkle ashes or sand on the ice before your door. Many persons are crippled for life every winter, in consequence of the shameful neglect of housekeepers, in not observing the law requiring them to sprinkle ashes on the slippery sidewalks.—
The police ought to correct this evil.

The SLEICHING.—The cold weather that we have had for two or three days past, has kept the sleighing in most capital order. But yesterday it was none of your spring sleighing, such as we had a week ago; but fur caps, mufflers, &c., were requisite, to keep the riders warm; and a steady stream of sleighs, of all descriptions, were circling up Broadway, and the other principal streets, all day—everybody happy and enlivened by the bracing sir. If this weather continue, we shall have sleighing for some time.

FUNERAL OF THE WARCKED.—The funeral of E. G. Douhan, captain, and E. Rosengreu, mate of the Swedish bark Lotty, lost on Squan Beach, took place yesterday afternoon, at half-past 4 o'clock. It was attended by the Pilots' Association, the Swedish Consul, several. Swedish captains and sailors, and quite a number of citizens. The bodies were conveyed to the Dutch Church in Carmine street, where they were consigned to the dust. The colors of the shipping in port were lowered at half mast.

Cold Weather—If anybody had said that it was cold yesterday, we are confident that his position would not have been disputed by any one who had been out where the air could blow on him. In the morning, at 7 o'clock, the thermometer stood at 8 degrees above zero, which is, we believe, the coldest weather we have had this winter. Toward noon, however, it rose; and just about 12 o'clock it was quite mild. But it graw cold again; and last night was another freezer. This will, somewhat, put back the opening of the North River.

Before Judge Waterman.

Thomas J. Stewart, vs. Francis Barkman.—This action was brought to recover commissions for selling cotton for defendant, who is Captain of the skip Anson. Two hundred and six bales were received by plaintiff, and sold at a satisfactory price to the Captain. The plaintiff alleged the defendant had agreed to pay him 37; cents per bale for selling the same. This the defendant denied, but expressed a willingness to pay the sunal brokerage, which is 12; cents per bale. One J. S. Fost was brought forward for the defence, to prove that he weighed the cotton for Capt. Barkman, and signed his name to a return of weights, as a city weigher, and on being cross examined, it was ascertained that he was in the habit of weighing cotton as a business, and signing his name as "city weigher" without legal authority. During the course of the trial, a rich scene occurred between one of the witnesses, and the counsel for the defendant.

The jury rendered a verdict in favor of plaintiff for the foll amount of his claim, \$77-25.

Laroque and Buckley, for plaintiff. Manchester, for defendant

Before the Recorder, and two Aldermen.

Figs. 27.—John W. Rey, charged with stealing a watch worth \$22, the property of John W. Sherry, was first placed on trial, and acquitted.

Themes McCarty and George Brown, were placed at the bar, on a charge of stealing a vest. McCarty was adjudged guilty, and sentenced to spend 6 months in the penitentiary.

Augustus W. Clason Jr., was called up, and fined \$60 for an assault upon James G. Bonnett, which fine the defendant paid, and was discharged.

John Chaminghem, was adjudged guilty of committing an assault and battery upon the person of a policeman, by the name of John Mahan; for which offence, he was ordered to be imprisoned in the city prison, for the term of 10 days.

Alexander McMighten, for estealing a quantity of bar iron, belonging to Frederic & Fisher, was also sentenced to the city prison for 10 days.

John Moigneux, a colored man, charged with stealing six bundles of rope from the corner of Anthony and Centre streets, was tried, found guilty, and sentenced to be imprisoned in the penitentiary, for the term of 6 months.

James Reynolds, a colored man, was next placed at the bar, on a charge of stealing a copper kettle, and other articles, the property of Samuel Ackerman. He was found guilty, and sentenced to the penitentiary for the term of 3 months.

Enech Reymond was then tried for an assault and battery upon a female, with whom he had lived for some time past, found guilty, and sentenced to be imprisoned in the penitentiary for 8 months.

William Rebinson, a mulatto, was adjudged guilty of committing a violent assault and bettery upon a celored man, with a club; for which offence, he was deemed a werthy studiest for 30 days sentenced in the penitentiary in 6 days.

Saith vs. Pest.—This bare was reported in the Herald yesterday. The jury found a verdict for plaintiff, of \$60, which carries costs.

Great Fire at Vicksburg Whig, dated on Saturday, the office of the Vicksburg Whig, dated on Saturday, the lith instant, giving the particulars of a destructive conflagration in that city, which broke out on that morning. We give the extra entire:—

Vicksburg, Saturday, Feb. 14.—This morning, about daylight, a fire broke out in a frame building next to the river, at the foot of Jackson street, beleaging to Judge Bodley, and temporarily occupied by some alayes belonging to Mr. Vick, that were brought here to be shipped up the river to his plantation. They kindled a fire upon some earth that had been formerly placed there and on which a stove had stood, and it is supposed if communicated to the floor. It then caught the two houses occupied by the Mesers Dickerson, which were stored with hay andcorn; and from thence it communicated to the old building formerly occupied as the Whig office. It than spread to the commission warshouse of Mr. James Gwin, entirely consuming that and four adjoining frames; then crossed Washington street, and swept the buildings from the corner of Jackson to Main; and from thence up Main street to Walnut.—Mr. Fraisse's brick building alone being saved. The north side of Main street, from Washington to Walnut, is a heap of ruins, as well as the north side of Walnut street as far as the residence of Mrs Shockney, which was consumed. The wind was very high at the time, and one half of the town would have been burnt but for the recent rain—the roofs of the houses being very wet—blazing shingles and boards falling very thick over the whole of Springfield. A great deal of property has been destroyed, and many families in moderate circumstances have lost nearly their all. The lossers were, Judge Bedley three houses; Mr. Chinn, of New Orleans, one; Mr. Armstroog one; store of Mesers. Alkin & Gwinn, belonging to some one in Philadelphia; Hartweil Vick's heirs, severa
